

The RINJ Foundation STERILIZATION AND AUTOCLAVE MANUAL

Mission Statement:

To conduct all sterilization as if the patient was HIV Positive.

Preparation, Updates and Authority

Prepared pursuant to instructions provided according to the Regulated Health Professions Act, 1991, S.O. 1991, c. 18, et. seq. s. 28, the Delegation of a Controlled Act Section, and the Medicine Act, et. seq. etc. including any and all, written oral and standing orders or instructions made and delegated to any RINJ Foundation worker who comes under the control of the licensed member of the profession in respect to that professional's practice of medicine and or any written or oral instructions by the licensed member of the profession in respect of the sterilization of equipment and things that fall within the umbrella of the practice of the profession of medicine and surgery.

This is Mandatory Reading and Study material for all employees who perform sterilization or assist or interact with patients, surgery and the practice of medicine pursuant to directions written, oral, or standing "directions" of the surgeons who perform surgery and practice medicine at the facility.

Updates

Suggestions for Inclusions are welcome and encouraged.
