## THE STATE-SPONSORED EXTRAJUDICIAL KILLINGS IN THE PHILIPPINES

(JANUARY 26, 2017)

### I. INTRODUCTION

The bases of this special report are credible intelligence provided by multi-sources of active and retired Philippine National Police (PNP) Officers. These sources, composed of 12 active Personnel with ranks ranging from Police Chief Superintendent (P/CSUPT) to Police Officer I (PO1), and five (5) retired Personnel, provided vital intelligence on the true account of PNP's anti - illegal drug campaign codenamed "Project Double Barrel", which has two (2) components: Project Tokhang and Project High Value Target (HVT).

There are attachments to this report, and charts and diagrams for deeper scrutiny. The report also seeks to present inside information about how the extrajudicial killings (EJKs) are carried out and funded, including the operational system used in managing the killings.

A highlight of this report is the judgment, based on the available information, that the Philippine drug war is on its initial stage, and is one phase of a campaign of "social cleansing".

The anti-drug campaign has a mass character hinged on Marxist theory.
